SUMMARY

An experienced Software Engineer with a demonstrated background in designing and implementing software systems and applications. A keen ability to work with developers to produce intellectual property that meets design schedules and customer functional and quality requirements. Experienced with the front-end application design as well as back-end verification and validation. Developed code in line with Agile and Test-Driven Development Methodologies.

KEY STRENGTHS

- SDLC
- Creativity
- SDM
- Teamwork
- Wireframe
- Communication
- Problem solving
- Agile methodology

TECHNICAL SKILLS

- Java
- HTML5
- CSS
- Java Script
- Node
- jQuery
- MongoDB
- Oracle Database
- Spring Booth
- Splunk
- JIRA
- Kafka
- Bootstrap
- GraphQL
- Lucid Chart
- Restful API
- GitHub
- Postman
- Swagger
- Express
- Heroku
- AWS
- VS Code
- IntelliJ
- MS Office Suite
- React
- MySQL
- Figma

PROFESSIONAL EXPERIENCE

Associate Application Developer

2019 –2021

ADP, Alpharetta GA

- Initialized projects using AWS, Spring Boot Micro API Services.
- Developed code with Agile and Test-Driven Development Methodologies.
- Worked with Kafka, ICP, RESTful API, Swagger, Splunk.
- Attained and collaborate on stand-up calls for status updates and raise an issue if any
- Discuss and propose a solution that better fits enterprise architect, lead developer, and design needs by brainstorming, planning, developing, and contributing solutions to complex design work and develop user stories.
- Oversaw technical support and troubleshooting for client-facing issues.

Global Product and Technology Development Intern

2018 –2018

ADP, Alpharetta GA

- Led debugging various front-end and back-end applications at functional, design, and programming levels.
- Participated actively in Scrum meetings and manage Rally and JIRA Boards for keeping track of activities.

Quality Assurance

2012 –2018

Philips Respironics, Kennesaw GA

- Tested oxygen and medical devices to ensure operational functionality by monitoring all stages of the process to ensure a high-quality product.
- Trained employees to successfully maintain quality and compliance standards.

PROFESSIONAL DEVELOPMENT

- Java Programmer Certification
- SWAGGA Certificate for service learning

COMMUNITY INVOLVEMENT

- Developers Student Club
- Society of Women Engineers
- Women in Technology

EDUCATION

Georgia Institute of Technology, Master of Science in Computer Science

Currently Pursuing

Georgia Institute of Technology, Full Stack Web Development Bootcamp

Currently Pursuing

Kennesaw State University, Bachelor of Science in Software Engineering

May 2019

Chattahoochee Technical College, Associate of Science in Computer Programming

May 2016
